## Portail bnu : The How-To Series

## Episode 4: How do I find databases for my subject of interest?

Episode 4 looks at how to find databases by subject. Again, start by connecting to Consortium Luxembourg's electronic documentation portal at <u>www.portail.bnu.lu</u>. Once there, click on the "Find Database" menu option.

Let's say we would like to see all databases that contain resources on "Law". First, click on "300-Social Sciences" in the Category list. The list of sub-categories will change and you will see "340-Law(44)" is in the list. The number in parentheses after the sub-category is the number of resources available in the sub-category.
